Short Description

The story of Salesian Presence in Australia from 1927-1967

By Fr Ted Cooper SDB

Description

The history of Australia is full of good stories, real life stories of exceptional men and women who performed outstanding deeds of bravery, endurance, make-do, foresight, kindness and self-sacrifice. In doing so they became legendary figures in our national story.

“Grateful Heirs” has all these ingredients, and combined, they make an inspiring yarn.

It is the story of any exceptionally brave and tenacious group of Salesian priests and brothers who, with little knowledge of Australia and Australian conditions, came to add the spirituality of St John Bosco to the emerging Catholic Church.

It is a good yarn, not filled with spectacular events but stories that tells, warts and all, of humble (and not so humble), fallible, men, whose dogged perseverance in the face of testing trails and crushing disappointment finally succeeded in establishing a foothold in a strange and enigmatic land. They were heroes all.

Writing is a lively style, the 'greats' of the story come to life as likeable characters with all their strengths and weaknesses.

"Grateful Heirs" is a significant contribution to Australian religious biography.

Delivery

Delivery is to Australian Addresses Only

The shipping charge for one copy of this book is \$13.75 (including GST) and will be added at checkout.

- If you purchase more than one book, shipping is based on the total weight of your order.
- Delivery charge includes Parcel Mail with a Tracking number.
